OWN A PIECE OF AMERICAN HISTORY

Thompson Submachine Gun

General John T. Thompson, a graduate of West Point, began his research in 1915 for an automatic weapon to supply the American military. World War I was dragging on and casualties were mounting. Having served in the U.S. Army's ordnance supplies and logistics, General Thompson understood that greater firepower was needed to end the war.

Thompson was driven to create a lightweight, fully automatic firearm that would be effective against the contemporary machine gun. His idea was "a one-man, hand held machine gun. A trench broom!" The first shipment of Thompson prototypes arrived on the dock in New York for shipment to Europe on November 11, 1918 the day that the War ended.

In 1919, Thompson directed Auto-Ordnance to modify the gun for nonmilitary use. The gun, classified a "submachine gun" to denote a small, hand-held, fully automatic firearm chambered for pistol ammunition, was officially named the "Thompson submachine gun" to honor the man most responsible for its creation.

With military and police sales low, Auto-Ordnance sold its submachine guns through every legal outlet it could. A Thompson submachine gun could be purchased either by mail order, or from the local hardware or sporting goods store.

Dillinger's Choice

While Auto-Ordnance was selling the Thompson submachine gun in the open market in the '20s, Gen. Thompson was uncomfortably aware of what the guns could do if in the wrong hands. To his distress, the submachine gun turned out to be the weapon chosen by gangsters.

The "Tommy Gun", literally, made the '20s roar. Possessing tremendous firepower, the Thompson submachine gun was an effective weapon. The Thompson was used by gangsters, such as John Dillinger, Al Capone and Baby Face Nelson.

Trusted Companion for Troops

It was, also, in the mid '20s that the Thompson submachine gun was adopted for service by an official military branch of the government. The U.S. Coast Guard issued Thompsons to patrol boats along the eastern seaboard. In 1928, Auto-Ordnance made a new Navy model to be used by Marines on Naval gunboats.

World War II began, and the Army recognized the need for the submachine gun. The Thompson, simplified and more durable with the butt stock removed and a 30 round stick magazine, became the constant companion of American soldiers. Story, after story, tells how it was the fire of the Thompson submachine gun that protected the villages, saved the troops and won the battles in Europe and the Pacific.

Historical Research

Kahr Firearms Group is proud to preserve the legacy of Auto-Ordnance Corporation, the original maker of the famous Thompson submachine gun. To assure the historical accuracy of the Auto-Ordnance design, Kahr researched the original engineering drawings. Hundreds of U.S. military microfiche and hand drawings of the Thompson models dating back to 1919 were examined.

Thompson Submachine Gun - A Piece of American History

The Thompson submachine gun is a historical firearm. Each one is the union of original design, quality materials and fine workmanship. An American legacy preserved. Carried by the gangsters in the '20s. Trusted by the troops during World War II. Find out how it feels to hold a Thompson submachine gun!

Put a Piece of American History in Your Hands.

THOMPSON® LONG GUNS

**Thompson® 1927A-1
with detachable buttstock**

MODEL: T1B

- Accepts both stick and drum magazines

Thompson® 1927A-1 "Commando"

MODEL: T1-C

The semi-auto "Commando", features parkerized steel and all wood stock, rear grip and horizontal forend in a durable black finish. With the same hard hitting .45 caliber, features and quality of our 1927 A1 deluxe model, it comes complete with a 30 round magazine and black nylon sling.

- Accepts both stick and drum magazines

Thompson® M1

Thompson® M1-C (Lightweight)

MODEL: TM1 / TM1C

MODEL: TM1-SMAG (30RD SURPLUS MAGAZINE ALLOWED IN MA)

Here is a .45 caliber semi-automatic version of the world's first and most famous military rifle. The Thompson M1 was used victoriously in battles throughout the world, inscribing its place for all times as a legend among military firearms. We offer the same attention to craftsmanship today that made the original so highly regarded. The look and feel are authentic, right down to the side bolt action. The frame and receiver are milled from solid steel or aluminum, the wood is genuine American walnut and the overall finish is a blued steel or black anodized aluminum.

- Will not accept drum magazines • Available in both steel and aluminum receivers

**Thompson® 1927A-1****Thompson® 1927A-1C (Lightweight)**

MODEL: T1 / T5

MODEL: T1-SMAG / T5-SMAG (30RD SURPLUS MAGAZINE ALLOWED IN MA)

MODEL: T1D (with 10 round drum for NJ & MD)

All the classic details of the time honored original are reproduced in today's semi-auto Thompson. The frame and receiver are machined from solid steel or aluminum. The wood is genuine American walnut. This .45 caliber carbine features a 16 1/2" finned barrel, compensator and is available with a blued steel receiver or a lighter weight aluminum receiver. This configuration is our most popular model.

- Shown with optional 50 rd. drum magazine • Available in both steel & aluminum receivers • Accepts both stick and drum magazines

COLLECTIBLE • LEGAL TO OWN • SHIPPED WITH (1) 30 ROUND NEW MAGAZINE OR SHIPPED WITH (1) 30 ROUND SURPLUS MAGAZINE FOR MA

Tommy Guns are prohibited in CT. Please check with your local law enforcement agencies.

SHORT BARREL RIFLES

The Thompson .45 ACP models produced by Auto-Ordnance and Kahr Arms in Worcester, MA are faithful semi-auto firing replicas of the famous “Chicago Typewriter®.”

Thompson® 1927A-1 SBR

MODEL: T1SB

This is the original Thompson design made famous during the 1920's in the hands of gangsters and G-men. The operation is semi-auto, fires from a closed bolt and the barrel is 10.5" long. The frame and receiver are machined from solid steel and the stock is genuine American walnut. The finish is blued steel.

- Shown with optional 50 rd. drum magazine • Available in steel only • Accepts both stick and drum magazines

**Thompson® 1927A-1 SBR
with detachable buttstock**

MODEL: T1BSB

- Accepts both stick and drum magazines • Available in steel only

Winston Churchill

Thompson® M1 SBR

MODEL: M1SB

This is a stunning reproduction of the Thompson military model made famous during WWII. The operation is semi-auto, fires from a closed bolt and has a 10.5" long barrel. The frame and receiver are machined from solid steel and the stock is genuine American walnut. The finish is blued steel.

- Will not accept drum magazines
- Available in steel only

Thompson Short Barrel Rifles must be shipped to a Class 2 manufacturer or Class 3 dealer directly from our factory in Worcester, MA.

The transfer paperwork between Kahr Arms/Auto-Ordnance and the dealer, known as a Form 3, must be completed and approved by the NFA branch, Bureau of Alcohol, Tobacco and Firearms (BATF) before the Thompson SBR can be shipped to the dealer. The customer needs to pay a \$200 transfer fee directly to the BATF. Your local dealer can assist you in this process.

COLLECTIBLE • LEGAL TO OWN SHIPPED WITH (1) 30 ROUND NEW MAGAZINE

Short Barrel Rifles (SBRs) are prohibited in HI, IL, NJ, NY, RI, WA. However, local laws may also prohibit SBRs. Please check with your local law enforcement agencies.

THOMPSON® 1911 PISTOL

Thompson

MADE WITH PRIDE IN THE U.S.A.

5" BARREL • STAINLESS FRAME & SLIDE • SHIPPED WITH (1) 7 ROUND MAGAZINE

Thompson® Custom 1911 Stainless

MODEL: 1911TC

The Thompson Custom 1911 frames are machined on high precision computerized machinery from a 420 stainless steel casting. The slide is machined from a solid stainless steel billet utilizing specialized tooling to reduce set-up and refixturing.

The combination of high precision equipment and fewer set-ups result in a higher quality and more consistent final product at a lower price.

The slide and frame are finished in an attractive matte finish, markings are laser-engraved including the distinctive Thompson bullet logo on the slide. Front and rear sights are black with serrations and are dovetailed into the slide. The ejection port is flared and the slide has front and rear serrations machined at a slight angle. The mainspring housing is checkered and the frontstrap is machine checkered at 20 lines per inch. Additional features include an adjustable trigger, combat hammer, stainless steel, full-length recoil guide rod, extended beavertail grip safety; extended magazine release; checkered laminate grips with a Thompson bullet logo inlay and a serrated slide stop lever.

AUTO-ORDNANCE 1911 PISTOLS

Auto-Ordnance 1911A1 “WWII Parkerized”

MODEL: 1911PKZSE / 1911PKZSEW

We go back to the basics with our military parkerized version of the 1911A1 Pistol. This model features original “G.I.” detailing right down to the military style rollstamp, vertical slide serrations, plastic grips and lanyard loop.

Unlike other “plain Jane” WWII 1911s on the market Auto-Ordnance’s model is produced entirely in the U.S., the slide is machined from solid 4140 barstock, the barrel is a one-piece design and the sear and disconnector are machined from high carbon steel. Finally all parts are heat treated properly giving you an exceptional value in a fine WWII era pistol.

MODEL: 1911PKZSEW
Checkered wood grips with U.S. Logo

AUTO-ORDNANCE SPECIAL EDITION 1911 PISTOLS

Auto-Ordnance 1911A1
Black / Hunter Orange

Auto-Ordnance's Special Edition 1911 Pistols are 100% made in America and feature frames and slides machined from high carbon 4140 steel. The Special Edition models have been treated with a high temperature ceramic Cerakote coating and include such colors as the intriguing hunter orange and sniper green. The base model for the Special Edition is Auto-Ordnance's standard .45 ACP 1911 with a 5" barrel, 8.5" overall length and weight of 39 oz. This model comes with standard iron sights in a dovetail cut and several grip options are available in checkered gray laminate and black rubber featuring the iconic Thompson bullet logo. Auto-Ordnance Special Edition models are available for a limited time and in limited supplies and must be ordered from a local firearms dealer.

This Thompson Replica gun is designed to closely imitate the look of the real Tommy Gun! The frame and receiver are machined from solid steel. The buttstock and grips are genuine American walnut and the finish is blued steel. The trigger, safety and magazine catch work the same as the real guns. The bolt handle does not work. Roll markings on the receiver replicate the real guns down to the Thompson bullet logo in the front of the rear sight. This is a replica gun you will be proud to own and display for years to come. It ships with a 30 round stick magazine.

- Shown with optional 50 round drum magazine

Shipped directly to consumers.
