

M1SB

Thompson M1 SBR

Model: M1SB

Thompson M1 SBR

"Short Barrel Semi-Auto Rifle"

This is a stunning reproduction of the Thompson military model made famous during WWII. The operation is semi-auto, fires from a closed bolt and has a 10.5" long barrel. The frame and receiver are machined from solid steel and the stock is genuine American walnut. The finish is blued steel.

Thompson Short Barrel Rifles must be shipped to a Class 2 manufacturer or Class 3 dealer directly from our factory in Worcester, MA. The transfer paperwork between Kahr Arms/Auto-Ordnance and the dealer, known as a Form 3, must be completed and approved by the NFA branch, Bureau of Alcohol, Tobacco and Firearms (BATF) before the Thompson SBR can be shipped to the dealer. The customer needs to pay a \$200 transfer fee directly to the BATF. Your local dealer can assist you in this process.

Short Barrel Rifles (SBRs) are prohibited in AL, HI, IL, NJ, NY, RI, WA. However, local laws may also prohibit SBRs. Please check with your local law enforcement agencies.

Suggested Retail Pricing - Effective: January 1, 2009 -
