

CASE HARDENED CUSTOM 1911

Taking a classic 1911 to the next level without diminishing its history is no easy feat, but adding an even more classic finish formally raises the bar. Auto-Ordnance has done just that with the new GI Series 1911 with “case hardened” finish. This time honored tradition of working steel produces distinct and unique patterns of color long sought after by firearms aficionados.

The Auto-Ordnance Case Hardened 1911s are each a work of art, covered in a beautiful, swirling finish. Beneath the colorful surface is an all steel, 5”, “GI” pattern 1911 pistol, chambered in powerful .45 ACP. The grips are checkered

wood with the “US” military logo. While every Auto-Ordnance GI 1911 is made to replicate the look of the original guns, they are also equipped with a precisely machined barrel. This guarantees that they may look like a GI pistol, but they will shoot with a level of accuracy the originals could not match.

The Auto-Ordnance Case Hardened 1911 gives today’s shooter a chance to own a beautifully finished piece of American military history, and experience legendary shooting performance with every trip to the range!

The Kahr Firearms Group family combines Kahr Arms, Magnum Research, and Auto-Ordnance, into a single American brand providing products of exceptional quality for the discerning consumer. Kahr Arms is the original expert at making compact, semi-automatic pistols. The C, P, and K series handguns represent the best option for concealed carry. Magnum Research Inc. produces the Desert Eagle, and BFR handguns. The recognized magnum handgun experts, Magnum Research also produces the ultralight, super accurate SwitchBolt rimfire rifle. Auto-Ordnance manufactures a range of historical firearm reproductions, including the legendary Tommy Gun, 1911 pistol, and M1 Carbine. All three brands make up the Kahr Firearms Group family of firearms.
