.22 LR | 10 ROUND

.22LR TOMMY GUN

Experience the iconic legacy of the “Chicago Typewriter” in a fun, affordable platform with the new Thompson Model T3. Capturing the classic silhouette of the 1927 original with the distinctive finned barrel, vertical foregrip, and Cutts-style compensator; this rifle is chambered in the economical .22LR cartridge for cost-effective recreation.

The T3 blends vintage aesthetics with modern versatility, featuring a receiver-mounted Picatinny rail that allows for the attachment of optics, which can be replaced with an included M1-style fixed rear sight for a traditional profile. The receiver and frame material are made of durable glass fiber reinforced polymer. Outfitted with beautiful polymer furniture featuring a classic wood-grain finish, this is the lightest Thompson ever made.

Each gun ships with one 10-round rotary magazine based on the Tommy Gun stick magazine, and can also accept standard 10/22[®] rotary magazines. Barrel length is 16.1 inches, and is made from a metal liner in glass fiber reinforced polymer. The T3 overall length is 36”, and weight without magazine 5.2 lbs.

The Thompson Model T3 offers the perfect balance of historical style and modern affordability for plinking at the range.
