## DESERT EAGLE® • SEMI-AUTOMATIC HANDGUN

All Desert Eagle handguns ship with one magazine in a high impact polymer case. Current Mark XIX model Desert Eagle handguns have Picatinny style top accessory rail. Mark XIX 6" barrel, stainless steel and aluminum framed handguns have a Picatinny bottom rail as well as the Picatinny style top accessory rail. To convert a Mark XIX .50 AE or .429 DE to the .44 MAG you will need the .44 MAG barrel and .44 MAG magazine (vice versa). .429 DE takes the same magazine as the .50 AE. To convert a Mark XIX .50 AE, .429 DE or .44 MAG to the .357 MAG you will need the .357 MAG bolt assembly, .357 MAG barrel and .357 MAG magazine (vice versa when going from the .357 MAG to either the .44 MAG, .429 DE or .50 AE).

## MAGNUM LITE® • RIMFIRE • SEMI-AUTOMATIC RIFLES

Magnum Lite rimfire rifles are manufactured in the United States. All Magnum Lite receivers are CNC machined from 6061-T6 aircraft aluminum forging and include an integral Picatinny rail for optics. Magnum Lite rimfire rifles come standard with a 1/2 x 28 threaded muzzle except for the stainless barrel model. SwitchBolt receivers ship with a charging handle on the left side, can be switched with a tool in the field to right side for left-handed shooter.
