THOMPSON® .50 BMG **TAO50**®

18 - INCH BARREL

Auto-Ordnance delivers massive firepower in a compact footprint with the introduction of the new 18-inch barrel TAO50 bolt-action rifle. Chambered in the devastating

.50 BMG caliber, this hard-hitting platform slashes length and weight to maximize portability and maneuverability without sacrificing the extreme long-range accuracy of the original model.

Machined from high-tensile steel alloys, the 18-inch barrel TAO50 features a rugged single-shot bolt mechanism, a premium target-rifled barrel, and a proprietary high-efficiency muzzle brake engineered to tame heavy linear recoil.

Completely customizable to the shooter, it comes standard with an integrated top Picatinny rail for optics, an adjustable bipod, an ergonomic pistol grip, and a fully adjustable stock assembly for a perfect cheek weld and length of pull.

Experience the ultimate blend of anti-materiel precision and fast-handling utility with the new compact king of the heavy-rifle arena.
