

Made in the USA

MODEL: **T1ABCR**
UPC: **602686-423236**

Auto-Ordnance, maker of the legendary "Tommy Gun," is proud to introduce a striking new edition of its classic .45 ACP semi-automatic carbine: the Thompson T1ABCR. Building upon the time-tested 1927A-1 platform, this custom model delivers a stunning two-tone finish that combines historic American craftsmanship with an absolutely beautiful, eye-catching color scheme.

Featuring a deep matte black steel receiver paired with high-polish chrome accents, the T1ABCR commands attention from every angle. Polished chrome appointments highlight the iconic Cutts compensator, front sight, open rear adjustable sight, charging handle, pivot plate, trigger, safety selector, sling swivels, and buttplate. A matching polished chrome 20-round stick magazine completes the showpiece look.

The carbine retains all the hallmark features that define the Thompson legacy, including a 16.5-inch finned barrel with a Cutts compensator for an 18.5-inch overall length, and premium American walnut furniture. The woodwork showcases the classic horizontal rear stock, pistol grip, and ergonomic vertical foregrip with finger grooves for optimal control and handling. Chambered in the proven .45 ACP, this model offers collectors an extraordinary blend of historical pedigree and distinctive contemporary flashiness, featuring Greeley, PA receiver markings.
